Health Economics

**MSc and Doctor of Philosophy
inter-university programme**

„Studying the way I want it! “

ANYTIME - ANYWHERE - FLEXIBLY - ONLINE

With our services we offer students across the globe access to education at the highest level, interdisciplinary networking and scientific exchange.

The inter-university programme is designed for professionals from the fields of health sciences, nursing, medicine, medical administration and medical technology disciplines. Challenges of society, demography, screening programmes and continuous changes in the health science sector, are the driving force for interdisciplinary, specialized, university programmes.

Health Economics. A program - Ambitious and looking forward.

THE UNIVERSITIES

Universidad Azteca (UA) and Universidad Central de Nicaragua (UCN) jointly offer inter-university double degree programmes to international students. Both institutions are internationally oriented and offer their students a variety of options and educational opportunities in distance learning and blended learning programmes
